

Envoy Connect Simplified Accessible Reading

Envoy *Connect* is the world's first solar powered, compact, accessible audio player.

MegaVoice, together with Vision Australia, have created *Connect* to make reading more accessible for everyone.

Save your favourite audio books on the player's bookshelf to read anywhere. True mobility is possible thanks to the built-in solar panel and rechargeable battery.

The *Connect's* simplicity suits both young and old, whether it is used for recreation, education or important everyday information - all available at the press of a button.

Downloading and listening to DAISY books is easy using the *Connect* Software, the expandable memory and USB connectivity of the *Connect* player.

If you need a practical and economical 'go-anywhere' accessible audio player, then the *Connect* is for you.

Key Features

- Tactile buttons
- Solar powered
- Economical
- Reliable
- Portable
