
ENVISION

SECURE, ACCESSIBLE, TOUCH SCREEN TABLET

The Envision from MegaVoice brings us one step closer to seeing the Bible in a new accessible way for everyone, everywhere.

The Envision is perfect for visual learners and those who are deaf or hearing-impaired. Video content, such as the ASL Bible (American Sign Language) or The Jesus Film, are available to be loaded onto the Envision. Users can experience the message like never before on the Envision's high quality screen and through its dynamic audio. Easily navigate the secure audio, video and image content with the intuitive, icon-driven touch screen. This durable Envision is charged through a USB-C cable and can be paired with solar panels and backup battery, allowing Partners to reach previously unreachable areas.
