
ENVOY 3 EQUIP PLUS

SOLAR POWERED AUDIO BIBLE & RADIO WITH AN LCD SCREEN

ABOUT

The Envoy 3 Equip Plus builds on over 30 years of experience to provide an unparalleled, solar rechargeable discipleship and teaching tool – with a screen! The Envoy 3 Equip Plus adds some very unique features: for the first time, a MegaVoice with a screen, clock, and AM, FM, and SW bands. All content is secured on each player, meaning our Partners can confidently share audio Bibles, Bible studies, sermons, music, educational content, humanitarian messages, and more without worrying that the content will be changed or erased.

AM/FM/SW Radio – Listen to radio stations, disaster relief broadcasts, or messages for refugees. Bookmark three channels per radio band.

Multi Content – Players can hold multiple languages, dialects, or combinations of audio. The intuitive keypad and display screen identifies the content being played and makes it easy to navigate large amounts of audio content using four levels of navigation.

LED Flashlight – Three levels of illumination provide the perfect amount of brightness for each situation. Use the included lanyard for a hands free torch.

Playback Speed Control – Speed up or slow down audio content to maximize the effectiveness of the message.

SPECIFICATIONS

- Solar powered, secure audio device
- AM/FM/SW radio
- LCD display screen
- LED flashlight (3 illumination levels)
- Multi-content/multi-language
- Playback speed control
- MicroSD card reader
- Internal memory: 8GB (up to 1,600 hours*)
