

Solar Case Speaker *for Envoy Dual, Envoy Micro and Diplomat*

Solar Case Speaker with built-in amplifier helps your ministry reach more listeners when using MegaVoice Envoy Dual, Envoy Micro, Story Teller, and Diplomat audio players. CE-certified 3W Solar Case Speaker has a stylish, hard exterior and padded protective internal shell. Unit is powered by 5.5V solar panel that can charge a MegaVoice audio player or any other device that charges with low power USB. Mini and micro USB cables and a 30 pin iPod connector are included.

To increase audio levels, just plug connector cable into a MegaVoice player earbud jack. Turn the Solar Case Speaker power on and use audio player to adjust the volume. For safe storage or transportation, slip player behind stretching bands and zip the case closed. Comes with shoulder strap and carabiner clip.
