

WILDLIFE STORYTELLERS A COMFORT TO LOST, HURTING CHILDREN AROUND THE WORLD

Wildlife STORYTELLERS were strategically developed to make a long-lasting impact on children around the world. From children of crisis to those who have never even heard of Jesus, Wildlife STORYTELLERS make an eternal difference.

Wildlife STORYTELLERS are unique spiritual tools to help you and your ministry partners share the Gospel and comfort children across the globe.

Experience shows that stuffed animals can bring physical and emotional comfort to children and adults who have gone through trauma and pain. The Wildlife STORYTELLERS will help children of poverty, disease, and disaster around the world literally feel God's love, as they hear about the hope He gives. And they provide a foundation of faith.

WILDLIFE STORYTELLERS ARE:

Oral

Two-thirds of the people in the world are oral communicators. Wildlife STORYTELLERS come with a portable audio player device with a choice of either solar-rechargeable ability built into the player or a re-charge ability like a cell phone via a usb cord. Players are pre-loaded with secured Bible stories, teachings, and audio content.

Relevant

People open their hearts and minds when they hear God's word in their own specific native tongue, or heart languages. Wildlife STORYTELLERS can be fitted with Biblical audio content available in over 5,000 languages and dialects.

Simple and Practical

A special pocket in each animal can hold the portable, audio player device, which features an easy-to-use control button. The player is solar rechargeable and can be recharged hundreds of times.

Comprehensive

The Wildlife STORYTELLERS can be loaded with Bible stories spanning the Old and New Testaments, meant to give a child a long lasting foundation of faith.

Child-focused

These soft, lovable critters comfort children and share God's Words of hope and love in a language they understand.

Safe

Each Wildlife STORYTELLERS animal is child certified, as well as the audio player device.
